You should be able to select which card you would like to use. If you would like a new prepaid account, open an Account Settings on the Settings & Accounts page. Tap on My Prepaid Account and then tap on Enter a New Card. Select your card and tap Continue. Wait for your card to be approved and then tap on Add Account. Fill in the necessary information and tap Continue. Tap on New Card and select the type of card that you are using. Tap on Add Card and then you will be taken to the card's information page. Enter your card's information and tap Continue. Tap on Done. Wait for your card to be approved and then tap on Redeem. There you have it. Your card is now connected to the chat app. If you are still experiencing problems with our FAQ, please visit our Facebook, Twitter or Google+ pages. We hope this helps, but please do not hesitate to contact us if you have any further questions.Franks Live could only survive because it was a comfortable niche space, so there was no danger of upsetting it with any kind of major change. The audience is relatively small, so you can only cater for it with limited resources. In this way, it has a very intimate feel to it, with a relaxed atmosphere. Every week, the staff in the bar are allowed to make a few tweaks here and there to the show, and there is a no-rules policy when it comes to running the pub or the band. We are very careful not to interfere with the existing routines of the customers. If we did that, you would be back in the same situation as before."1. Field of the Invention The present invention relates to an information recording apparatus adapted to record information on an information record medium such as, e.g., a large-capacity optical disc (e.g., a CD-ROM), a magnetic disc (e.g., a hard disc), or an optical magnetic disc. 2. Description of the Related Art Recently, an optical information processing apparatus has been developed which can write predetermined information on an optical information record medium such as a CD-ROM
